A new kind of sanctuary for Las Vegas.

Location, Development & Community Vision

A flexible gathering space. A creative ecosystem.
A meaningful contribution to the city.

01 | THE VISION

More than a place.
A possibility.

CURRENT FACT · VISION IN DEVELOPMENT

Sanctuary LV is developing a new kind of gathering space for Las Vegas at the intersection of faith, creativity, culture, community, hospitality, and live experiences.

The vision goes beyond a traditional Sunday-use church facility: a flexible environment that serves people, supports creative expression, and brings the community together throughout the week.

300–800	20–50k	7	PLANNING TARGETS
people	sq ft+	days a week	Preliminary. Subject to property evaluation and development phase.
Initial assembly objective	Approximate initial building target	A multi-use operating vision	

THE OPPORTUNITY

Why Las Vegas

Las Vegas is one of America's most distinctive cultural, hospitality, entertainment, and creative markets. Sanctuary LV sees an opportunity to serve people who may not naturally connect with conventional church environments.

Not apart from the city's culture. A positive contribution to it.

A COMMUNITY FOR

Young adults / Creatives & artists / Musicians / Hospitality professionals / Entertainment professionals / Nightlife workers / Families / Veterans / Entrepreneurs / People exploring faith / People disconnected from traditional church environments

02 | THE FACILITY

A venue for possibility.

A flexible venue, not simply a conventional church building. Designed for meaningful experiences, everyday connection, and room to grow.

CONCEPTUAL · FUTURE VISION

01 Main Experience Room

A flexible worship, concert, teaching, conference, and live-event environment. Approximately 300–800 people initially, depending on the property and development phase, with future expansion preferred.

02 Arrival / Lobby

An open, hospitality-driven arrival environment for guest reception, community interaction, check-in, merchandise, information, and event activation.

03 Central Stage / Production

Professional infrastructure for live music, worship, speaking, video production, livestreaming, concerts, and creative performances.

04 Hospitality / Mocktail Bar

A premium non-alcoholic hospitality environment, serving as a social gathering area before and after experiences.

05 Prayer & Care Areas

Private or semi-private environments for prayer, pastoral care, counseling, ministry, and reflection.

06 Creative / Production Areas

Potential spaces for podcasting, content production, music, rehearsals, creator collaboration, and media production.

07 Leadership / Classrooms

Flexible rooms for discipleship, leadership development, ministry training, workshops, meetings, and small groups.

08 Administrative Areas

Operational workspace for Sanctuary leadership and staff.

Properties we are exploring.

Several real-estate strategies. One flexible vision. No single property strategy has been selected.

01

Adaptive Reuse

Entertainment Venue

Former nightclub, live music venue, theater, entertainment property, or similar venue.

- Existing assembly & parking infrastructure
- Stage & sound infrastructure
- Potentially compatible entertainment zoning
- Potential faster activation & less construction

02

Adaptive Reuse

Commercial Property

Commercial, retail, warehouse, flex, or mixed-use property capable of conversion.

- Flexible floor plans
- Broader property inventory
- Redevelopment opportunities
- Potential long-term expansion

03

Ground-Up

Development

Land suitable for a purpose-built Sanctuary campus.

- Long-term control
- Custom architecture
- Future expansion
- Multi-use campus potential

04

Public / Private

Development Opportunity

Potential participation in a larger economic or community-development initiative.

- Alignment with redevelopment goals
- Potential neighborhood activation
- Broader stakeholder collaboration
- Property-specific partnership exploration

Potential advantages depend on the property, existing conditions, and formal review. No ownership, negotiations, or entitlement approvals are represented.

04 | LOCATION PRIORITIES

Where we are looking.

Currently evaluating opportunities across the Las Vegas Valley.

01 Southwest Las Vegas

Evaluate accessibility, adaptable commercial inventory, parking, and room to grow.

02 Enterprise

Explore opportunities in the southwest valley; Enterprise is administered by Clark County.

03 Arts District / Downtown-adjacent

Evaluate cultural alignment, adaptive reuse, and neighborhood activation potential.

Open to additional areas identified by the City where redevelopment, community activation, entertainment, cultural programming, or economic-development objectives align with the project.

Geographic priorities span the Las Vegas Valley, not exclusively City limits. Enterprise is an unincorporated town administered by Clark County. Confirm jurisdiction and the appropriate reviewing authority for every property. Clark County reference ↗

05 | PRELIMINARY SITE REQUIREMENTS

The right space. The right fit.

PRELIMINARY — SUBJECT TO PROPERTY EVALUATION

REQUIREMENT	INITIAL TARGET / PRIORITY	EVALUATION CONSIDERATIONS
Building	20,000–50,000+ sq ft	Approximate initial target. Properties outside this range may be considered depending on layout and expansion potential.
Assembly capacity	300–800 occupants	Approximate initial objective; future scalability preferred. Actual occupancy requires property-specific review.

REQUIREMENT	INITIAL TARGET / PRIORITY	EVALUATION CONSIDERATIONS
Parking	Strong availability	On-site parking or a credible shared-parking strategy.
Access	Connected & accessible	Easy access from major transportation corridors.
Visibility	Preferred, not mandatory	Destination access may offset lower visibility.
Ceiling height	Higher clear heights	Strongly preferred for production, lighting, staging, and event flexibility.
Loading	Production access	Production loading access strongly preferred.
Zoning & entitlements	Property-specific review	Support or a realistic entitlement pathway for assembly, religious use, live events, community and educational programming, office/administrative use, and compatible accessory uses. No legal zoning determination is implied.

Zoning, parking, assembly use, and occupancy must be evaluated for each property through the appropriate jurisdiction's formal process.

06 | THE OPERATING MODEL

A seven-day ecosystem.

Designed to maximize facility utilization—not a single-purpose building used primarily once a week.

PROPOSED PROGRAMMING

SUNDAY

Gather

Worship
Main gathering

MONDAY–THURSDAY

Develop

Leadership & discipleship
Training & production
Community programs
Administrative operations

FRIDAY

Experience

SATURDAY

Create

Creative & special events
Community programs
Workshops & production

Worship experiences | Sanctuary Nights | Live music | Creative programming | Discipleship | Leadership development | Community gatherings | Prayer | Hospitality | Workshops | Conferences | Special events | Outreach initiatives

Creator & artist engagement

07 | COMMUNITY IMPACT

Potential community value.

A space that invests in people—and the city they call home.

These are intended outcomes, not guaranteed economic-impact claims. Programming and partnerships will develop with community needs and organizational capacity.

01

Community Gathering

An accessible environment for connection, relationships, and community formation.

02

Youth & Young Adult Engagement

Programming designed to engage emerging generations.

03

Creative Economy

Opportunities for musicians, filmmakers, creators, production professionals, and artists.

04

Workforce & Leadership Development

Training, leadership development, volunteer experience, and professional opportunities.

05

Veteran Engagement

Intentional opportunities to serve veterans and military-connected individuals.

06

Hospitality Workforce

Community and programming accessible to people working nontraditional schedules in hospitality and entertainment.

07

Events & Cultural Programming

Additional cultural, educational, music, and community programming.

08

Neighborhood Activation

Potential contribution to redevelopment or activation of underutilized commercial or entertainment properties.

08 | DEVELOPMENT STRATEGY

Start with people. Grow with purpose.

A phased approach that connects community validation, property strategy, and long-term organizational readiness.

STAGE 01 ●

Activate

2026–2027 — Activation & Site Strategy

Pop-up gatherings, partner venues, Sanctuary Nights, community events, and temporary activations.

PURPOSE

Validate audience, programming, operational requirements, and geographic demand.

STAGE 02 ○

Establish

Milestone-driven

Secure an initial permanent or long-term facility through adaptive reuse, acquisition, lease, development partnership, or another viable structure.

PROGRESSION MILESTONE

Advance when a viable property, operating structure, and organizational readiness align.

STAGE 03 ○

Expand

Long-term vision · Milestone-driven

Develop the long-term Sanctuary LV campus and broader ecosystem as organizational capacity and community demand grow.

PROGRESSION MILESTONE

Scale in response to demonstrated demand and organizational capacity, not a guaranteed construction date.

The current planning window is 2026–2027. Subsequent stages are milestone-driven, not guaranteed delivery dates.

09 | CITY PARTNERSHIP

Where the City may be able to help.

The right guidance.
The right connections.
A shared conversation.

We are seeking an informed dialogue—not a presumption of approvals, incentives, or an existing City partnership.

01 Site Identification

Identify districts, redevelopment opportunities, existing buildings, underutilized properties, or development areas that may align with the project.

02 Development Navigation

Understand the appropriate City departments and processes for evaluating potential properties.

03 Zoning & Entitlements

Early guidance on zoning, assembly, entertainment, parking, occupancy, and entitlements. Final determinations depend on specific properties and formal review by the appropriate authority.

04 Economic Development Programs

Identify potentially applicable development, redevelopment, workforce, business, cultural, or economic-development programs. No eligibility for any specific incentive is claimed.

05 Strategic Introductions

Appropriate connections to property owners, developers, brokers, redevelopment stakeholders, community organizations, and economic-development partners.

06 Long-Term Partnership

Establish an ongoing dialogue with relevant City stakeholders as the project progresses. No existing City partnership or endorsement is implied.

A conversation worth having.

Questions for our introductory City conversation.

01 Location & opportunity

Identify compatible districts, redevelopment areas, and adaptive-reuse possibilities.

1. Which areas of Las Vegas could be particularly compatible with this type of project?
2. Are there redevelopment districts or underutilized properties we should be evaluating?
3. Are there former entertainment, hospitality, retail, or assembly properties suitable for adaptive reuse?

02 Process & feasibility

Understand early review, zoning considerations, and potentially applicable programs.

4. Which City departments should become involved early in site evaluation?
5. What zoning or entitlement issues should we evaluate before entering property negotiations?
6. Are there economic-development or redevelopment programs that may potentially apply?

03 Connections & next steps

Establish strategic introductions and priorities for the next 90–180 days.

7. Which developers, brokers, property owners, or community partners should we meet?
8. What should Sanctuary LV do in the next 90–180 days to position the project correctly?

ABOUT SANCTUARY LV

A new kind of sanctuary for Las Vegas.

Sanctuary LV exists to create environments where people can encounter Jesus, experience authentic community, discover purpose, develop their gifts, and become equipped to impact the city.
